NETCONNECT structured cabling solutions

Engineered for what matters most

Those responsible for enterprise networks are under constant pressure to address the evolving demands of users and applications while protecting the bottom line. This requires a network infrastructure that delivers best-in-class operational performance and is engineered to maximize network value. Since 1990, network managers, installers and distributors have relied on CommScope NETCONNECT structured cabling solutions to improve performance and reliability while lowering the total cost of network ownership.

NETCONNECT solutions are a complete portfolio of standards-based fiber and copper solutions. High-performance cabling, connectors, panels, cords and jacks support any network application: voice, data, security, audio, video and building control; from the entrance facility to the desktop, in-building and across campus, today and tomorrow.

Fast to deploy, sustainable and easy to manage, all NETCONNECT solutions and components meet or exceed the structured cabling standards for enterprise applications, an assurance backed by CommScope's 25-Year Extended Warranty and Application Assurance.

Engineered, manufactured and supported by the world leader in structured cabling solutions, NETCONNECT solutions provide the consistent product availability and quality that keeps networks moving forward. The perfect balance of performance and value.

Fueling Partner-customer success

With a global network of certified NETCONNECT Partners, CommScope provides the opportunities, resources, expertise and technologies that empower NETCONNECT Partners and customers alike.

Benefits for Partners

CommScope NETCONNECT Partners leverage a wide variety of opportunities, including:

- Expanded visibility across a global customer network

- Access to CommScope-certified projects

- Opportunity to offer CommScope warranties

- Early adoption of the latest NETCONNECT solutions and technologies

- Anytime access to online education and training

- Guidance on design, installation and maintenance best practices

- Peer-to-peer support from a diverse, global ecosystem

- Access to exclusive Partner portals and enablement tools

To learn more about the benefits of becoming a CommScope Partner, visit the PartnerPRO® web page.

Benefits for customers

Customers who work with CommScope Partners stand to gain multiple competitive advantages, such as:

• Designs that leverage the full capabilities and value of NETCONNECT solutions

• Fast, accurate deployment that meets applicable warranty requirements

• Clear upgrade paths that can minimize CapEx and OpEx

• More uptime and increased network reliability

• Global consistency of service and fast, certified installations

• CommScope warranty protection

• Greater network security, stability and efficiency for confident peace of mind

To learn more about the benefits of using a CommScope Partner, download the brochure.

Performance assured in writing

The entire NETCONNECT portfolio is backed by CommScope's 25-Year Extended Product Warranty and Application Assurance, giving you the product and performance assurances you need to grow with confidence. This unique blanket of support brings peace of mind, in writing, that:

• All NETCONNECT products will meet or exceed their performance specifications for at least 25 years.

• NETCONNECT cabling channels will support all warrantied applications.

• Any NETCONNECT product that does not perform to the stated specifications will be replaced at no cost, whether a problem arises in the first year or the 25th.

Only the best solution on the market can afford to offer this degree of warranty protection.

For details on CommScope's 25-Year Extended Product Warranty, visit CommScope.com/Resources/Warranties.

Beware of CommScope look-alikes

CommScope is a trusted global provider of high-performance network infrastructure solutions. Counterfeiters try to exploit our reputation with illegal counterfeit products, the use of which can lead to severe consequences.

For example, counterfeiters use cheap alloys or aluminum instead of copper, or jacket and connector materials that don't meet the flammability requirements for specific applications. More than affecting network performance, these products can put safety and property at risk, violate building codes or leave you open to negligence and fraud.

So CommScope gives you the tools to validate your solutions and verify genuine CommScope quality. Every CommScope package features a security hologram and scannable QR code that enables you to verify the authenticity of your product in seconds. Remember, only CommScope-verified products will deliver Commscope-branded performance.

Powered Fiber solutions

POWERED FIBER CABLE SYSTEM

· Outdoor and riser/LSZH, indoor-/outdoor-rated solutions

· Complies with SELV and NEC Class 2

· Peel-away jacket for fast cable access

· Utilizes globally existing, proven and inexpensive FTTH-style flat cable hardware

COMMSCOPE POWERED FIBER CABLE SYSTEM

Powered Fiber solutions

POE EXTENDERS

- One- and two-port models
- IP68-rated seal for outdoor protection against moisture and the environment
- Automatically corrects for the cable's voltage drop over distance
- Integrated electrical protection
- Two-port extender connects two PoE or PoE+ devices with one hybrid cable
- One-port extender supports 802.3bt Class 6 power levels
- Supports SPF+ transceivers and 5 GbE via the copper port

MATERIAL ID	DESCRIPTION
PFU-P-C-O-060-02	60W, 2 Port PoE Extender*
PFU-P-E-O-060-01	60W, 1 Port 5 Gbps PoE Extender

*The 60W, 2-port PoE Extender provides a maximum of 30W on each port.

PFU-P-C-O-060-02

POWER EXTENDERS (FIBER PASS-THROUGH)

- The same power management and electrical protection as PoE extenders
- Support devices requiring direct fiber input and direct current (DC) power
- IP68-rated seal for outdoor protection against moisture and the environment

MATERIAL ID	DESCRIPTION
PFU-48-C-O-060-01	Power extender fiber pass through 48VDC
PFU-12-C-O-060-01	Power extender fiber pass through 12VDC

PFU-48-C-O-060-01

POWER SUPPLIES

- 57 VDC power supply for use with Powered Fiber Cable System

MATERIAL ID	DESCRIPTION
PFP-PX-S1	Power Express Distribution shelf with alarm module
PFP-PX-8M	Power Express Distribution module supports max. 8 Devices
PFP-PX-SF	Power Express Blank Slot Panel
PFP-SPS-S1	SPS Rectifier Power Distribution Shelf
PFP-SPS-1600M	1600W SPS Power Rectifier module
PFP-SPS-C1	SPS Rectifier Controller Display
PFP-SPS-SF	SPS Rectifier Blank Slot Panel
Powered Fiber solutions

SURFACE-MOUNT BOXES

· Support structured cabling labeling and administration

· Protect powered fiber cables and connections

· Provide a clean end point for terminating new indoor plenum powered fiber cables

· Support for multi-gigabit Wi-Fi access points

· Support for new and existing powered fiber cables

MATERIAL ID	DESCRIPTION
760248944	Kit, SMB, 1 Fiber Port, 1 Power Port, Beige
760248943	Kit, SMB, 1 Fiber Port, 1 Power Port, White
760248942	Kit, SMB, 1 Fiber Port, 1 Power Port, Black
760249095	Kit, SMB, 2 Fiber Ports, 2 Power Ports, Beige
760249094	Kit, SMB, 2 Fiber Ports, 2 Power Ports, White
760249093	Kit, SMB, 2 Fiber Ports, 2 Power Ports, Black

POWERED FIBER CABLE (PLENUM) TRANSITION BOX

· Easy and secure transition point for indoor-to-outdoor powered fiber cables

· Terminates permanent link, powered fiber cables for future end devices

· Plenum-rated enclosure

· Surface-mounted installation

· Meets UL2043, UL1863, UL62360 and CE safety standards

· Dimensions: 4.37 in (111 mm) x 14.18 in (360 mm) x 14.57 in (370 mm)

· Internal interfaces: six fiber LC duplex and six two-wire terminals

· Interface capacity: six channels

· Input power: 100 W per channel (NEC Class 2)

· Input voltage: 30 V AC | 60 V DC per channel

· Environmental space: Indoor | Plenum

· Weight: 14 lbs. (6.35 kg)

· Package quantity: 1
MATERIAL ID	DESCRIPTION
760250853	PFC Transition Box, Plenum rated, cool gray
FiberGuide™

The FiberGuide™ fiber management platform is an expansive portfolio of optical raceway components and capabilities. It protects and routes fiber-optic patch cords, multi-fiber cable assemblies and intra-facility fiber cables (IFCs) to and from fiber splice enclosures, fiber distribution frames and fiber-optic terminal devices.

Tool-less, FiberGuide Snap-Fit™ junctions significantly reduce the installation time. FiberGuide platform is available in a variety of sizes and basic components, including horizontal and vertical straight sections, horizontal and vertical elbows, downspouts, junctions, and numerous support hardware and flex-vertical kits.

Width and height options range from 50 mm x 50 mm to 100 mm x 600 mm, with the most commonly deployed sizes listed in the ordering tables below. To see all sizes and options, please download the FiberGuide ordering guide.

Fiber panel portfolios
EPX™ panels for G2™ modules, cassettes and adapter packs

The EPX G2 family of fiber panels, modules, cassettes, adapter packs, wall boxes and accessories provides configurations and capabilities for almost any application. Polarity type, fiber count or performance requirements; you name it, the G2 family has it.

G2 EPX panels

The G2 EPX panel is a low-cost solution for usable density in a 1U format.

Standard density EPX panels for LGX/1000-style modules, cassettes and adapter packs

EPX LGX/1000-style standard density fiber-optic panels were specifically designed to make your building's infrastructure effective, efficient and easier to manage. They deliver high performance through modular and easy-to-use pigtailed splicing cassettes. The LGX/1000-style splice cassettes are designed for individual pigtails, each preloaded and prerouted for quick fusion splicing. These cassettes provide a protective space for fusion splicing, patching and storing your fiber-optic cables. By incorporating these advantages into a single cassette, you can be confident that your connections and cabling will be safeguarded from contamination or future damage.

QWIK®-Fuse connectors

CommScope QWIK-Fuse connectors utilize fusion splicing to provide superb insertion and return loss performance. Available in LC and SC styles, these connectors are compatible with existing fusion splicers and include the ferrule holder; CommScope also offers a competitively priced fusion splicer specifically for connector installation. Unlike many fusion-splice connectors, QWIK-Fuse connectors are completely contained within a standard connector footprint.

QWIK-Fuse tool kits

CommScope QWIK-Fuse connector tool kits include the core components for fast, reliable and repeatable connector terminations.

The QWIK-Fuse termination tool kit includes all necessary tools and supplies for cable preparation and termination.

The QWIK-Fuse installer tool kit includes everything in the termination tool kit, plus an installer purpose-built splicer and fiber holders for terminating QWIK-Fuse connectors with other splicers are also available from CommScope.

QWIK-FUSE TOOL KITS AND ACCESSORIES	
Material ID	Description
760243402	Qwik-Fuse Termination Tool Kit, LC, SC (for splice-on connector termination)
760243403	Qwik-Fuse Installer Tool Kit, LC, SC, with Qwik-Fuse Installer and termination tools
760244684	Qwik-Fuse cord tool, 1.6, 2.0, 3.0 mm
760243576	Qwik-Fuse Installer
760243617	Qwik-Fuse fiber holder, tight buffer and cordage (for use with Qwik-Fuse Installer and many AFL and Sumitomo splicers)
760244521	Qwik-Fuse fiber holder, loose buffer and 250µm fiber (for use with Qwik-Fuse Installer and many AFL and Sumitomo splicers)
760244706	Qwik-Fuse fiber holder, Fitel, set
760245135	Qwik-Fuse connector duplex clip, LC, 10 per pack
760245136	Qwik-Fuse connector duplex clip, SC, 10 per pack
760245969	Qwik-Fuse metal ferrule holder

QWIK MPO connectors and tool kit

QWIK-Fuse MPO connectors are mass-fusion-splicing solutions that speed the repair, restoration, and upgrade of multi-fiber cable assemblies. They are a perfect alternative when factory-terminated MPO solutions cannot be used, such as when high-fiber-count cables must be fed through tight conduits or when slack storage of a multi-fiber breakout is not possible. The ferrule holder, required for terminations, comes with the QWIK-Fuse MPO termination kit and is also available separately.
Fiber	SMF (OS2)
	MMF (OM3/4/5)
